Action Plan Steps

Noah Webster Academy provides a classical approach to learning while increasing its focus on Science, Technology, Engineering, Arts, and Math (STEAM). We desire to provide multiple opportunities to increase learning proficiency and growth in reading and STEAM areas.

1. Field Trips - Provide money for buses and entrance fees for educational field trips for all grades (K-6). Each grade level will participate in three field trips per year. These trips depend on the grade

level and include learning focused in science (Christa McAuliffe Space Center, Clarke Planetarium, Natural History Museum of Utah, Bean Life Museum, Hogle Zoo), technology (Biztown, This is the Place), engineering (Museum of Natural Curiosity, Discovery Gateway), and arts (Scera and Hale Theaters, Hope of America, The Leonardo). These field trips provide hands-on learning which enables a deeper understanding of the standards being taught in class. (\$14,000)

2. Teacher Summer Collaboration - Provide funding for three (3) days of summer grade level collaboration time for teachers to review and plan for the upcoming school year. This paid summer time will provide teachers the opportunity to review class and testing data while discussing and creating plans for the upcoming year. (\$30,050)

3. Library - Provide additional funding for books for the library. Our school WIG (Wildly Important Goal) is for scholars to develop a love of reading by reading 80% of the days of the month. Purchasing additional books for the library will provide scholars with more choices of books they can take home to help us reach our WIG. (\$2,000)

4. Technology - Provide funding to update classroom technology (Chromebooks, Smartboards, etc). This supports our desire to individualize and differentiate learning through the use of technology. (\$34,338)

Digital Citizenship/Safety Principles Component

Does this academic goal include a component to implement digital citizenship or safety principles?

Yes **No**

If 'Yes' is selected, an answer to the following question is required.

Total expenditures in this limited expenditure category may not exceed \$7,000 total for the plan, consistent with R277-477. Enter any expenditures to implement **this component of an academic goal** with the expenditure category and the Action Plan step.

Increased Distribution

The 2025-26 distribution in this plan is an estimate. If the actual distribution is more than the estimate, how will additional funds be spent to implement the goals described in the plan?

Any additional funds will be used to support purchasing additional technology.
